

"Autumn Leaves is an audio compilation that emerges out of a collaboration between Gruenrekorder and Angus Carlyle. The inspiration for the compilation derived from the book "Autumn Leaves: Sound and the Environment in Artistic Practice" - published by Double Entendre - which Angus Carlyle edited and Gruenrekorder contributed to.

The compilation presents an extremely wide-ranging exploration of the theme of sound and environment. You can hear everything from carefully crafted spoken word pieces, through compelling electro-acoustic compositions, to the purest forms of unedited and unsequenced phonography.

To immerse yourself in this compilation is to hear how others have heard the world and is a chance, perhaps, for you to hear your world in different ways".
