Good Morning Camberwell

Good Morning Camberwell ! - November 2004 - London

By the London based artists group foreign investment is a one-day live broadcast of the favourite tunes of residents, locals and passers-by of Camberwell Church Street aired during the exhibition YESVEMBER in November 2004. Foreign Investment transformed the House Gallery in Camberwell in South East London into one large amplifier: relaying 100 personal number 1-s directly from the street into the traffic soundscape outside the shop window. This track is a 10" mix down of one day audio footage.
